## **PART A: STRATEGIC OVERVIEW OF THE ASSEMBLY**

### **1.0 Establishment of the District**

The Afigya Kwabre North District Assembly (AKNDA) is established by Legislative Instrument (L.I.) 2334, 2017 and is located in the central part of the Ashanti Region covering an area of approximately 228.0km<sup>2</sup> representing 0.94 percent of the entire region (24,370.5km<sup>2</sup>). It lies between Longitude 1°40'W and 1°25'W and Latitude 6°50'N and 7°10'N. The District shares boundaries with five districts, in the North with Ejura-Sekyedumasi Municipal, Afigya Kwabre South District to the South, Sekyere South District to the East and Atwima Nwabiagya North and Offinso South Municipal to the West all in the Ashanti Region. The location of the District falls within the forest zone of Ghana.

The District was carved out from the defunct Afigya Kwabre District Assembly in 2017 in pursuance to the decentralization programme in Ghana. This was to bring governance to the doorstep of the people to enhance the decentralization process started in 1988. The AKNDA was inaugurated on Thursday, 15<sup>th</sup> March, 2018. Its capital is sited at Boamang, about 55.0 kilometres from Kumasi and lies 12.0 kilometres from Kumasi-Offinso-Akomadan highways. The District has 31 settlements (27 communities), which are divided into Three (3) Area Councils and further sub-divided into 15 Electoral Areas. Politically and administratively, the District covers the entire Afigya Kwabre North Consistency. Some of the notable communities in the District include; Denase, Akom, Nkwantakese, Esaase, Ahenkro, Kwamang, Amoako, Boamang, Maase, Kyerekrom, Nsuotem, Abroma, Penteng, Soko, Akom, Tetrem and Kyekyewere.

### **1.2 Population Structure**

According to the 2021 Population and Housing Census (PHC), the Afigya Kwabre North District has a total population of 73,330 which accounts for 1.3 percent and 0.2 percent of the population of Ashanti Region and Ghana respectively. In comparison to the 2010 population of 47,649 people in the District, it shows that there has been an increase of 25,681 over the eleven years period.

The Projected Population for 2025 is 86,054 using the Growth Rate of 4.0%. Males

constitute 41,257 thus 49.9% and Females constitute 41,422 representing 50.1%.

The result indicates that the District's population has been increasing by 4.0% annually in terms of growth rate. The reason for the rapid increase may be attributed to the status of the District serving as a dormitory town to Greater Kumasi enclave.

The average household size of the district as shown in the 2021 PHC is 3.9 which is higher than that of the Ashanti region and national which are 3.4 and 3.6 respectively.

### **1.3 Vision**

To become a highly professional and responsive Local Government Authority that provides basic public services which meet the development needs of the people within the District.

### **1.4 Mission**

The Assembly exists to strategically formulate plans and programmes through citizens' participation for effective mobilization and utilisation of human, material and financial resources for development. This should bring about a qualitative change in the physical environment and the livelihoods of people in the District.

### **1.5 Goals**

The development goal of the Afigya Kwabre North District Assembly is to achieve rapid and sustainable growth and improved living conditions through addressing the infrastructural, socio-economic and other identified development gaps in the District.

### **1.6 Core Functions**

The functions of the District Assembly, like all other MMDAs, basically derived from its Legislative Instrument 2334, 2017 as mandated by the Local Governance Act 2016, Act 936 and the Legislative Instrument 1961, 2009. The Assembly exercises political and administrative authority, provides guidance, gives direction to, and supervises all other administrative authorities in the District. In addition, the Assembly exercises deliberative, legislative and executive functions

as outlined in the Act 936. These functions, which are broadly aimed at attaining the vision and fulfilling the mission of improving the quality of life of the people in the District as stipulated in Section 12 to 16 of the Local Governance Act 2016, Act 936, are to:

- Be responsible for the overall development of the District.
- Formulate and execute plans, programmes and strategies for the effective mobilisation of the resources necessary for the overall development of the District.
- Promote Local Economic Development (LED) activities in the District.
- Promote and support productive activity and social development in the District and remove any obstacles to initiative and development.
- Sponsor the education of students from the District to fill particular manpower needs of the District especially in the social sectors of education and health.
- Initiate programmes for the development of basic infrastructure and provide municipal works and services in the District.
- Be responsible for the development, improvement and management of human settlements and the environment in the District.
- Be responsible for the maintenance of security and public safety in the District.
- Ensure ready access to courts in the District for the promotion of justice.
- Act to preserve and promote the cultural heritage within the District.
- Monitor the execution of projects under approved development plans and assess and evaluates their impact on the people's development, the District and National economy.
- Initiate, sponsor or carry out studies that may be necessary for the discharge of any of the duties conferred by this Act or any other enactment.
- Perform any other functions that may be provided under another enactment

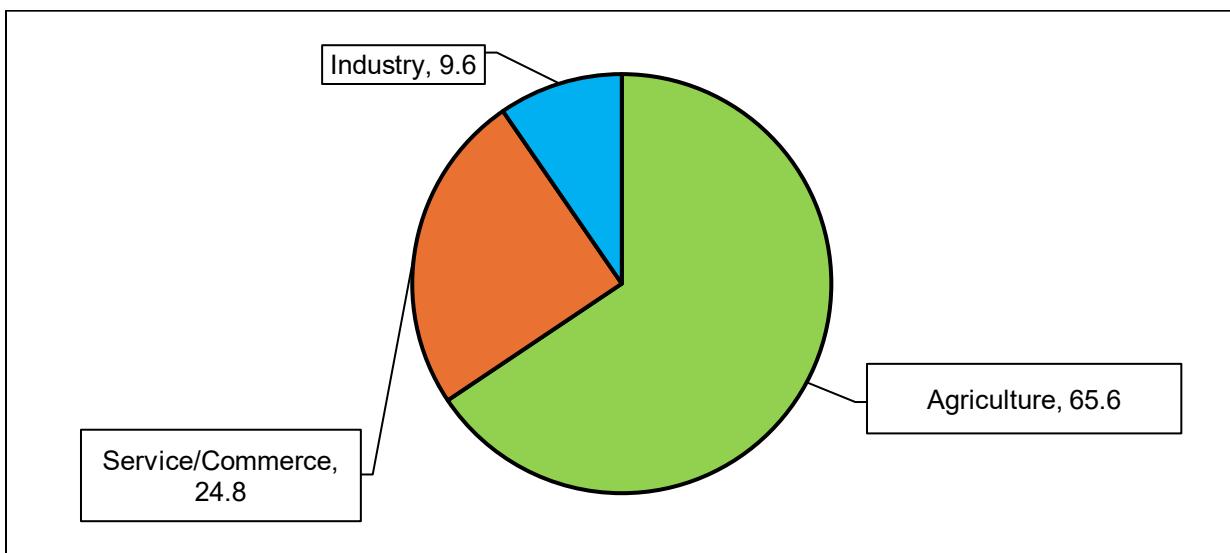

## **1.7 District Economy**

Explicitly, Figure 1.7.1 shows the District economy in glace, providing data on employed persons 15 years and older by occupation. It shows that workers in Agriculture Sector (skilled agriculture, forestry, and fishing) constitute the largest occupational group (65.6%), followed by those in Service/Commerce Sector (services and sales) (24.8%), and in Industrial Sector (craft and related

trades, and others) (9.76%). The high skills work such as managers, professionals and technicians accounted for only five percent of the employed persons. This means that most of the employed persons (close to two-thirds) are into Agricultural occupation indicating that the structure of the District economy is purely agrarian.

The skilled agricultural, forestry, and fishery work is the dominant occupation comprising male's proportion of 77.3 percent which is more than the female's proportion (72.5%). On the other hand, the proportion of females engaged in services and sales as workers (13.6%) is higher than that of males (3.1%). The details of the other sectors of the District's economy has been illustrated to include agriculture, road network, energy, health, education, market centres, water and sanitation, tourism and the environment.

## 2. Agriculture

The District's economy is regarded as agrarian, largely due to the sector's contribution to employment generation and employing 65.6 percent of the economically active persons 15 years and older. Thus, agriculture plays a vital role in the socio-economic development of the District.

The key agricultural sub-sectors include crops, livestock, fisheries, agro-forestry and non-traditional commodities. The farming practices in the District include mono-cropping, mixed cropping and mixed farming. Comparatively, the District's proportion (65.6%) is considerably higher than the regional average of 36.6 percent and national average of 45.8 percent. In addition, 29.6 percent of all households engaged in agriculture are into multiple farming activities in the District and it is estimated that 43.2 percent of income of the people comes from Agriculture.

Currently, the Extension-Farmer ratio is 1:2,580, which makes it difficult to offer efficient and effective services compared to the acceptable standard of 1:300 farmers. The Agriculture Department of the District has identified this human resource gap as affecting the agricultural productivity in the District. The few officers also face with the problem of inadequate logistics such as motorbikes for regular field inspection and visits. In order to deliver effective and efficient services to clients, the Agriculture Department has administratively divided the District into 13 operational areas being manned by the eight Agricultural Extension Officers. The services normally rendered to farmers are geared towards sustainable agricultural production.

### 3. Road Network

The District has estimated Road Network coverage of 71.7km. Out of this, 48.1km representing 67.1% are engineered and 23.6km (32.9%) are Un-engineered which need routine and periodic maintenance.

These feeder roads linked up the agricultural production centres and major settlements in the District. However, there is the need to undertake routine and periodic maintenance on these roads. There is a truck road linking the District's capital to the Kumasi-Offinso-Akomadan Highways. Table 3.1 shows the level of road network in the District.

**Table 3.1: Road Network in the District**

#### 4. Energy

Most occupied households in the District use firewood as their major source of domestic energy. With respect to electrification, it is worth mentioning that, out of the 27 communities in the district, 21 communities representing 77.8 percent are connected to the national grid. The other six communities (Amponsahkrom, Abidjankrom, Prabon, Oyera, Sofialine and Duaponko) representing 22.2 percent are yet to be connected to the national grid.

It is an established fact that absence of electricity in these six communities have adverse effects on the socio-economic development of the people. The other means of light for households in communities without electricity is flashlight or touch light. It is worth mentioning that, there has been an extension of electricity from Kwamang CMI School to Police barrier and also at Kyekyewere Amankraso which hitherto was not available. However, it is imperative to ensure that there should be extension of electricity to the communities without one and also to newly developed areas in the District to enhance livelihood.

#### 5. Health

The district has one (1) hospital, seven (7) health centers and one (1) CHPS-Compound which are fairly distributed across the District. In general, the nine (9) facilities serve a total population of 100,662 people as indicated in the Table 4.1 These numbers of populations being served which

are more than the District's population of 73,330 in 2021 and 86,054 in 2025 as projected shows that the facilities also serve clients outside the District.

In terms of physical accessibility, the facilities are well distributed in a manner that a patient doesn't need to travel beyond 3km to access healthcare. However, the bad nature of some roads makes travel time a bit longer than desirable and makes accessing healthcare difficult for some parts of the District.

In terms of ownership, seven (7) of the facilities are government owned whiles one (1) is CHAG and another one (1) belonging to private person. It should be mentioned that the only hospital in the district is owned by a private person. However, the government's agenda 111 hospital being constructed at Boamang is at advance stage of completion but has been stalled for some time now.

Table 5.1 presents the number of facilities, their locations, category/level, ownership and their coverage of population served.

## 6. Education

The Afigya Kwabre North District has a total of 163 educational institutions spread across the district as at the beginning of 2024/2025 academic year. Out of this, Pre-school and Primary schools constitute 112 with 56 each. In terms of ownership, there are 74 public and 38 private for both pre-school and primary respectively. Besides, at the Junior High School (JHS) level, the

district has 47 schools comprising of 36 public and 11 private. Also, there are 4 Senior High Schools (SHS) in the district which are all public owned.

From the numbers, it can be realized that private participation in the educational sector in the district is very low though there has been some level of improvement over the last four years. The number of private school in the last four years have increased by six (6) each at the Pre-school, Primary and Junior High Schools. However, there is still the need to promote private participation in education delivery in the district.

Besides, the number of public schools has also seen some level of improvement over the last four years. Five (5) more schools have been established at the JHS level and one (1) more was established at the SHS level. These improvement in both the public and the private schools has brought schools closer to the children within the various communities which has resulted in reduction of walking distances that pupils have to cover to attend school.

Table 5.1 presents information on schools in the district distributed among the six circuits with the type of ownership.

## **8. Market Centres**

Markets provide avenues for transactions in the buying and selling of goods and services. They also contribute significantly to the Assembly's Internally Generated Fund. The District has over four (4) market centres but all of them have no ultra-modern market facilities. The District has five

(5) weekly market days at Kyekyewere (Fridays), Tetrem (Tuesdays), Kwamang (Tuesdays), Nkwantakese (Wednesdays) and Boamang (Fridays). About 75.0 percent of the District have access to these periodic markets. Despite the existence of these facilities, there is still the challenge of post-harvest losses in the District, which can largely be attributed to lack of storage system and processing facilities.

Middle women mainly from Kumasi, Suame, Agona and Offinso play an important role in the marketing of agricultural produce in the District. Most of the farmers sell off their produce to these middle women and men on market days which they in turn sell at urban markets within and outside the District. Unfortunately, these middle women dictate the prices of the agricultural produces and in most cases the negotiations are unfavourable to the farmers. There is, therefore, the need to promote the patronage of the locally produced foodstuffs by the School Feeding Programme, Second Cycle Institutions and among others. The District have signed agreement on construction of ultra-modern market stores facilities at Ahenkro under Build- Operate and Transfer agreement under the Public Procurement ACT 2003(ACT 663)(at 90% completion stage as at September 2025, construction and completion of 1 No. 24 units market Stalls and construction of Ino.1 Storey 6-Unit Lockable Stores at Danase which is 100% Completed and commissioned for use to boost internal generated revenue mobilization and easy access of purchasing of items by the various communities within Ayensu Area Council.

## **9. Water and Sanitation**

The main potable water facilities in the District are Ghana Water Company Systems, Small Town Water Systems, Boreholes and Hand-dug wells. There are 134 boreholes and 13 hand-dug wells in the District. Boamang, Kyerekrom, Amoako, Kwamang, Tetrem and Kyekyewere have small town water systems whereas Ahenkro, Denase, Akom and Nkwantakese have access to Ghana Water Company Systems. The District has potable water coverage of about 80.1 percent as at 2024 with an average distance of 284.0m. There is the need therefore to provide additional water facilities to close the gap and to meet the demand of the growing population. This also calls for the provision of additional water facilities after the post-COVID-19 pandemic.

There are 383 known household latrines and 15 communal toilets whereas pit latrines are the dominant household method of liquid waste disposal among most of the rural communities. In

most of the rural communities, there is usually only one pit latrine for the whole community. The District has 12.1 percent access to improved public toilet facilities and 1.5 percent access to improved household toilet facilities with an average distance of 264.4m. There are no drains and culverts in most communities to manage household liquid waste. These inadequate sanitary facilities for the disposal of solid and liquid waste are the major causes of diseases like malaria, cholera and 12decentration in the District. However, the District has Bye laws to regulate environmental management activities in the built environment

## 10. Tourism

There are number of tourism opportunities in the District. The known ones are merge of Offin and Abankro Rivers at Nsuotem and Amankra, the Natural Lake located at Kyekyewere. These sites are not developed as their potentials are hindered by lack of investment. These sites are of aesthetic importance which when developed would serve as a potential source of revenue and diversification of the local economy for Local Economic Development (LED). Table 10.1 presents some attractions of these sites in the District.

**Table 10.1: Tourism Sites in the District**

| Tourism Sites                                    | Attractions   |
|--|---|
| Merge of Offin and Abankro Rivers at Nsuotem     | This site provides a classic example of two close rivers, which do not merge. This attraction has not been developed which if exploited fully could generate employment, revenue and also create wealth for accelerated development in the District. The sector would be looked at critically during the implementation of the LED Strategic Action Plan. The Assembly intends to provide tourism facilities such as hiking trails, improved the road network to promote tourism. The necessary enabling environment would be created by the District Assembly to enable the private sector invest in this sector |
| Amankra — The Natural Lake located at Kyekyewere | The lake is located at Kyekyewere in the Tetrem-Kyekyewere Area Council. It is 500 metres away from the Central Business District of Kyekyewere Community. The river is essential scenic for good tourism activity in the District. However, the District lacks potential investment to turn this investment potential into reality.  |

## **9. Environment**

There is a great need to integrate environmental concerns in planning in the light-of competing need of urbanization, agriculture and industrialization and their impact on the environment. Since the mainstay of the District economy is agrarian, there is the need to develop sustainability in the use of agricultural land.

Within the built environment, out of the 11,670 dwelling units, 67.3 percent of the houses are built with either mud brick or earth and also roofed with metal sheet (92.8%). Most of these houses have poor or no drains at all, unkempt surrounding and exposed foundations due to erosion. There are serious gully erosions in almost all the communities especially Kyekyewere, Tetrem, Kwamang, Akom, Denase and other parts of the District. In addition, most of the communities in the District lack proper settlement schemes for proper land-uses.

The main housing problem of the District is the poor quality of houses. Most essential housing facilities such as toilet, water, kitchen and electricity are woefully lacking. Compound houses constitute more than half (53.9%) of the housing stock in the District. The average household size is 4.5 compared to the regional average of 4.1 and national average of 4.4. The major sources of drinking water in the District are from stands pipe, boreholes, hand-dug wells, rivers and streams. Most water bodies in the District are contaminated by sand winning, farming and household waste.

Even though the District abounds in natural forest resources, the rate of reforestation has not matched up with the rate of exploitation. The situation has been compounded by bush-fires, firewood extraction, lumbering and sand winning District wide. Efforts have to be made to intensify re-afforestation and encourage good agricultural practices. Lumbering activities by large timber firms in the District have impacted negatively on the environment. A significant portion of the land, forest, wildlife and water resources is seriously threatened by this degradation. To contain the situation and restore the District ecological balance, there is the need to expand and intensify the on-going conservation activities. The Environmental Conversation Bye-laws of the Assembly must be enforced without fear or favour to the letter to help reduce the pressure on the environment, climate change and green economy.

## **1.8 Key Issues/Challenges**

The key community issues, needs and aspirations were captured through Community Level Public Hearings. Hence, through community level public hearings and participatory data collection, the DPCU collated the Community Development Plans (CDPs) of all the 27 communities in the District through three Area Councils. Currently, from all the consultation with all stakeholders, the following are the key issues and challenges facing the District.

- Inadequate basic social and economic infrastructure (Education, Health, Electricity, Market, Water, Sanitation and Road).
- Poor Road Conditions at Duoponko, Banko, Abidjakrom, Prabon, Soko, Abroma Adukro, etc.
- Limited access to finance for Local Economic and Agricultural Development.
- Limited revenue sources in the District.
- Inadequate office and residential accommodation for staff of the Assembly.

## **1.9 Key Achievements in 2025**

The mandate of the Afigya Kwabre North District Assembly, as expressed in the Local Governance Act 2016, Act 936, as responsible for the overall development of the District, has achieved the following per the year under review 2025 as displayed in Table 1.9.

## 1.10 Revenue and Expenditure Performance

Per the Local Governance Act, 2016, Act 936, Section 124 (1), the revenues of the Assembly comprises of Decentralized Transfers, Internally Generated Funds, and Donations and Grants. However, these sources have been divided into two broad categories. These are the internal and external revenue sources.

The internal sources mostly called the Internally Generated Funds (IGF) are derived from seven main items per the Act 936, Section 124 (3). These include Rates (Basic Rate and Property Rate), Lands & Royalties, Fees and Fines, Licences, Rent & Other Incomes, Investment Income and Miscellaneous Income.

From the Local Governance Act 2016, Act 936 Section 124 (1), the external revenue sources are grouped under Decentralised Transfers, Donations and Grants. The Decentralised Transfers (Section 124 (2) of Act 936) include; the District Assemblies Common Fund (DACF), Grants-In-Aid from the Central Government and any Other Revenue Transferred from the Central Government to the District Assembly. On the other hand, the Donations and Grants per the Act 936 Section 124 (6) include funds paid directly to the District Assembly by Development Partners, Philanthropists and Others.

There are three main expenditure headings of the Assembly. These comprise of Compensation, Capital Expenditure, and Goods and Services. The Compensation, and Goods and Services are the recurrent expenditures whereas the Capital Expenditures are capital/developmental expenditures. The Assembly is mandated to generate funds internally to discharge its planned programmes and projects. Funds such as the DACF and other transfers are also received from the Central Government to complement funds generated internally.

### **1.10.1 Revenue Performance**

The Afigya Kwabre North District Assembly budgeted an amount of GH¢1,318,403.22 for IGF for 2025 financial year. Out of this budgeted figure, GH¢767,255.00 representing 58.20 percent was actualized in September, 2025. This indicates that 58.20 percent achievement was recorded in 2025 from January to September for IGF Only. Additionally, Fees (96.23%) recorded the highest performance followed by Fines (81.51%), Property Rates (57.06%), Licenses (54.44%), Lands (54.22%) and the least performance is other rates (45.50%) as at September, 2025 as shown Table 10.1. On the other hand, with all the sources of revenue from Table 10.2, the Assembly projected to receive GH¢33,931,288.13, out of which GH¢14,149,786.72 representing 41.70 percent have been realized as at September, 2025.

### 1.10.3 Expenditure Performance

As at September, 2025 as illustrated in Table 10.3, out of the expenditure budget of GH¢33,931,288.13, GH¢8,782,011.86 representing 25.88 percent has been spent on Compensation, Goods and Services and Assets.

This means that in terms of expenditure, the Assembly has been spending within its budget line without overrun thus actual receipt of GH¢ 14,149,786.72 against expenditure amount of GH¢ 8,782,011.86 as at September, 2025.

- To improve revenue mobilisation, management and auditing.
- To ensure effective utilisation of the resources of the District.

### **2. Budget Sub-Programme Description**

The Sub-programme looks at the fiscal revenue mobilisation, management and auditing by ensuring adequate public expenditure management. This is to ensure that adequate revenue is mobilised locally to realise the budget estimate for the year. The Sub-programme is to be delivered through the Finance Department using the Treasury Unit, Revenue Mobilisation Unit and the Internal Audit Unit. The Department will ensure the payment of compensation, allowances, and charges and prepare other financial documents and reports necessarily to generate funds to the District.

The Internal Audit Unit is authorized to spearhead the implementation of internal audit control procedures and processes to manage audit risks, detection and prevention of misstatement of facts that could lead to fraud, waste and abuse to the Assembly.

There are twelve (12) staff under the Finance Department and the Internal Audit to implement this Sub-programme. The Sub-programme is to be funded from IGF, DACF

and GOG. It is expected that the Sub-programme is to benefit the Finance Department, the Internal Audit, Other Departments/Units and the general public. The challenge faced by the Department in implementing the Sub-programme include lack of adequate permanent revenue collectors ,inadequate data on ratable items and inadequate logistics like rain coats, torchlight, identification cards and wellington booths for revenue mobilisation.

## **SUB-PROGRAMME 1.3 Human Resource Management**

### **1. Budget Sub-Programme Objective**

The Sub-programme objective of the Human Resource Management is:

- To improve the capacity development of staff and assembly members in the District for effective delivery of public services.

### **2. Budget Sub-Programme Description**

The Sub-programme looks at providing training programmes for staff and assembly members in order to promote and improve the efficiency and effectiveness of the performance of the Assembly. It is to be delivered through capacity building programmes organised by the Human Resource Management Department. This will be achieved in collaboration with the District Planning Co-ordinating Unit and Consultancy Firms registered under the Local Government Service (LGS). The District Human Resource Manager is to ensure successful implementation of the Sub-programme.

Major services and operations delivered by the Sub-programme include human resource auditing, performance management, service delivery improvement, upgrading and promotion of staff. It also includes Human Resource Management Information System (HRMIS) which ensures frequent update of staff records through electronic means, guaranteeing efficient and good salary administration, facilitation of recruitment and selection as well as postings of competent staff to fill available vacancies at the District.

The intended beneficiaries of this programme are staff from all the Departments/Units, Assembly Members, Unit Committee Members, Area Council Members and other stakeholders. Under this, two (2) staff will carry out the implementation of the Sub-programme with main funding from IGF, DACF, GOG and DACF-RFG. The work of the human resource management is challenged with inadequate logistics and funds.

## **SUB-PROGRAMME 1.4 Planning, Budgeting, Coordination and Statistics**

### **1. Budget Sub-Programme Objective**

The Sub-programme objectives of the Planning, Budgeting and Coordination are:

- To prepare composite plans, budgets, procurement plans and reports for all Departments and Units.
- To monitor the implementation of programmes, projects and activities of all Departments and Units.

### **2. Budget Sub- Programme Description**

The Sub-programme seeks to ensure that all Departments and Units perform their roles as expected by collating the implementation status of programmes, projects and activities in the District. In addition, composite plans, budgets and quarterly reports are prepared on the all the activities implemented in the District which are submitted to appropriate authorities like Regional Co-ordinating Council, National Development Planning Commission, Local Government Service and among others. The Sub-programme is being delivered through the Units of the Central Administration. The Units involved are Planning Unit, Budget Unit and Procurement Unit in collaboration with the Works Department, Physical Planning Department, Finance Department, Revenue Unit and Internal Audit Unit.

The Sub-programme is being implemented with the support of ten (10) staff of the Central Administration Department (Planning, Budget and Procurement Units). The Sub-programme is being funded through the IGF, DACF and GOG. The beneficiaries of this Sub-programme are the Planning Unit, Budget Unit, Procurement Unit, Other Departments/Units and the general public. Lack of permanent vehicle for monitoring and evaluation has being the major challenge of the Units.

### 3. Budget Sub-Programme Results Statement

Table 2.7 indicates the main outputs, its indicators and projections by which the Planning, Budget and Procurement Units measure the performance of this Sub-programme. The past data indicates actual performance whilst the projections are the Units' estimate of future performance.

### **SUB-PROGRAMME 1.5 Legislative Oversight**

#### **1. Budget Sub-Programme Objective**

The Sub-programme objectives of the Legislative Oversight are:

- To ensure effective implementation of the decentralisation policy.
- To improve the co-ordination of Assembly Members in the delivery of public services.

#### **2. Budget Sub- Programme Description**

The Sub-programme seeks to co-ordinate the activities of Assembly Members, Unit Committee Members and Area Councils Members to their communities. This will help to ensure free-flow of information and ensure immediate feedback to promote the decentralisation policy in the District. The Sub-programme is being delivered through the Administration Unit of the Central Administration.

Under here, the report of the Executive Committee is eventually considered, approved and passed by the General Assembly into lawful District's programmes, projects and objectives for the growth and development of the District. The office of the Honorable Presiding Member spearheads the work of the Legislative Oversight role and ably assisted by the Office of the District Coordinating Director. The main unit of this Sub-programme is the Area Councils, Office of the Presiding Member and the Office of the District Coordinating Director.

The Sub-programme is being implemented with the support of ten (10) staff of the Central Administration Department (Administrative Unit). The Sub-programme is being funded through the IGF, DACF and GOG. The beneficiaries of this Sub-programme are the Administration Unit, Other Departments/Units, Assembly Members, Unit Committee Members, Area Council Members and the general public.

## **PROGRAMME 2: SOCIAL SERVICES DELIVERY**

### **1. Budget Programme Objectives**

The Programme objectives are:

- To increase inclusive and equitable access to, and participation in education at all levels.
- To improve quality of teaching and learning.
- To provide adequate and disability friendly infrastructure for sports in communities and schools.
- To create opportunities for accelerated job creation across all sectors.
- To bridge the equity gaps in access to health care.
- To ensure the reduction of new HIV and AIDS/STIs infections, especially among the vulnerable groups.
- To accelerate the provision of improved environmental sanitation facilities.
- To protect children against violence, abuse and exploitation.
- To develop targeted economic and social interventions for vulnerable and marginalized groups.
- To reduce spatial development disparities among different ecological zones across the country.

### **2. Budget Programme Description**

The Social Services Delivery Programme is intended to increase access to education at all levels, improve quality of teaching and learning, provide support to sporting activities, create job opportunities, improve access to health care, reduce the spread of diseases and HIV and AIDS/STIs, improve environmental sanitation, protect children, provide social interventions for the vulnerable and marginalized groups and reduce spatial development disparities among communities. The Sub-programmes to be implemented to achieve the programme include Education and Youth Development, Health Delivery and Social Welfare and Community Development.

To improve Health and Environmental Sanitation Services, the programs aims at providing facilities, infrastructural services and programmes for effective and efficient waste management for the environmental sanitation, the protection of the environment and the promotion of public health. The Programme also intends to make provision for community care services including social welfare services and street children, child survival and development.

The Birth and Death Registry seeks to provide accurate, reliable and timely information of all births and deaths occurring within the District for socio-economic development through their registration and certification.

The various organization units involved in the delivery of the programme include; Ghana Education Service, District Health Services, Environmental Health Unit, Social Welfare and Community Development Department, and Birth and Death Registry.

The funding sources for the programme include IGF, DACF, GOG, DACF-RFG and other Donor Funds. The beneficiaries of the program include urban and rural dwellers in the District. Total staff strength of ten (10) from the Social Welfare and Community Development Department, nine (9) Environmental Health Unit and, Birth and Death Registry (1) with support from staffs of the Ghana Education Service and Ghana Health Service.

## **SUB-PROGRAMME 2.1 Education, Youth and Sports Services**

### **1. Budget Sub-Programme Objective**

The Sub-programme objectives of the Education and Youth Development are:

- To increase access to basic education in the District.
- To provide quality teaching and learning materials in the District.
- To provide support to sporting activities in the District.
- To create opportunities for job creation in the District.

### **2. Budget Sub-Programme Description**

The Education and Youth Development Sub-programme is to create awareness in the communities to ensure community participation and empowerment in the education, training and development of the youth. This means that the Sub-programme provides skills training for the youth toward the world of work in the District. These services will be delivered by the Basic Education Unit, Non-Formal Education Unit, Youth and Sports Unit, District Youth Authority and Youth Employment Agency (YEA). However, these units will provide technical backstopping towards achieving the Sub-programme objectives. This Units include Finance and Administration Unit, Supervision Unit, Human Resource Unit, Statistics/EMIS Unit, Registry Unit, Accounts Unit, Audit Unit, Transport Unit and Security Unit.

The main source of revenue for the Sub-programme include IGF, DACF-RFG, DACF, GOG and Other Donor Funds. The main beneficiaries of the programme are Children, Youth, and Adult, Communities, General Public, Education Department and other stakeholders. The main challenges encountered in carrying out this sub-programme include inadequate and late release of funds (Dacf, GOG), inadequate office equipment, inadequate school buildings, etc.

### **3. Budget Sub-Programme Results Statement**

## **SUB-PROGRAMME 2.2 Public Health Services and Management**

### **1. Budget Sub-Programme Objective**

The Sub-programme objectives of the Public Health Services and Management are:

- To improve access to quality health care in the District.
- To reduce the spread of HIV/AIDS and improve the health status of PLWHIV.

### **2. Budget Sub-Programme Description**

The Sub-programme seeks to improve access to quality health care delivery to enhance the health status of the people in the District. This when achieved will astronomically reduce the spread of diseases, HIV/AIDS and other diseases. These services will be rendered by the Health Department.

The services will be delivered through the provision of health facilities and training programmes in the District. The funding sources are estimated to come from IGF, DACF-RFG, DACF, GOG and Other Donor Funds. The Communities, General Public, Health Department and the other Departments will be the beneficiaries of the Sub-programme. The Sub-programme would be delivered through the offices of the District Health Directorate with challenges militating against the success of this Sub-programme include delay and untimely release of funds from central government, inadequate office space, inadequate equipment and logistics to health facilities.

### **3. Budget Sub-Programme Results Statement**

Table 2.13 indicates the main outputs, its indicators and projections by which the Health Department measures the performance of this Sub-programme. The past data indicates actual performance whilst the projections are the Department's estimate of future performance.

## PROGRAMME 3: INFRASTRUCTURE DELIVERY AND MANAGEMENT

### 1. Budget Programme Objectives

The Programme objectives are:

- To improve and accelerate housing delivery in the District.
- To create and sustain an efficient and effective transport system that meets user needs.
- To provide adequate, reliable and affordable energy to meet the needs of the District.
- To accelerate the provision of adequate, safe and affordable water.

### 2. Budget Programme Description

The infrastructure delivery and management programme is to provide the services of quality housing delivery, efficient transportation system, adequate energy supply, ICT infrastructure and potable water supply in the district. The two main Departments tasked with the responsibility of delivering the programme are Physical Planning and Works Departments. This programme will be implemented through physical and spatial planning, and infrastructure development.

The Physical and Spatial Planning Sub-programme seeks to advise the District Assembly on national policies on physical planning, land use and development. It basically focuses on human settlement development and ensuring that human activities within the district are undertaken in a more planned, orderly and spatially organized manner. The Department of Works of the District Assembly is a merger of the former Public Works Department, Department of Feeder Roads and Water and Sanitation Unit, of the Assembly and responsible to assist the Assembly to formulate policies on works within the framework of national policies.

The Programme is implemented with funding from IGF, DACF, GOG and other Donor Funds of the Assembly such as Ghana Productivity Safety Net Project 11(GPSNP11). The beneficiaries of the programme include urban and rural dwellers in the District.

## **SUB-PROGRAMME 3.1 Physical and Spatial Planning Development**

### **1. Budget Sub-Programme Objective**

The Sub-programme objective of the Physical and Spatial Planning Development is:

- To improve the spatial arrangement and management of communities in the District.

### **2. Budget Sub-Programme Description**

The Sub-programme seeks to ensure that streets and properties in the District are named and addressed respectively to aid in revenue mobilisation. In addition, it seeks to ensure proper spatial arrangement to conform to land use in the communities in the District. The Sub-programme is to be delivered through the Town and Country Planning Unit of the Physical Planning Department. This will be carried out through stakeholder's meetings, settlement layouts, promote housing standards, design and construction as well as street naming. Major services delivered by the Sub-programme include;

- Assist in the preparation of physical plans as a guide for the formulation of development policies and decisions and to design projects in the District.
- Advise on setting out approved plans for future development of land at the District level.
- Assist to provide the layout for buildings for improved housing layout and settlement.
- Advise the Assembly on the siting of bill boards, masts and ensure compliance with the decisions of the Assembly.
- Undertake street naming, numbering of house and related issues

The Sub-programme is to be funded from DACF, IGF and GOG. The Town and Country Planning Unit, Works Department, Traditional Authority, Community and the General Public are the beneficiaries of the Sub-programme. There is six (6) staff to support the

implementation of the programme. The major challenge facing the Department is the inadequate staffing levels, and untimely releases of funds.

## **SUB-PROGRAMME 4.2 Agricultural Services and Management**

### **1. Budget Sub-Programme Objective**

The Sub-programme objective of the Agricultural Development is:

- To improve agriculture productivity through sustainable agriculture financing.

### **2. Budget Sub-Programme Description**

The Sub-programme seeks to enhance food security through the provision of adequate financing and the promotion of food crops. This services will be delivered by sixteen (16) technical staff of the Agriculture Department with funding from IGF, DACF, GOG, GPSNP 2, etc.

In improving agriculture productivity in the District, the Department has initiated the Planting for Food and Jobs (PFJ) and it related activities and implementation of Ghana Productivity Safety Net Project 2 on agriculture (Nurseries and other related activities). This is to increase productivity and total production and improve food and income distribution to vulnerable groups and enhance nutrition of Communities, General Public, the Agriculture Department and the Other Departments. It aims at benefiting the general public especially the rural farmers and dwellers. Key challenges include inadequate staffing levels, untimely releases of funds and inadequate logistics for public education and sensitization.

### **3. Budget Sub-Programme Results Statement**

Table 2.29 indicates the main outputs, its indicators and projections by which the Agriculture Department measure the performance of this sub-programme. The past data indicates actual performance whilst the projections are the Department's estimate of future performance.

## **PROGRAMME 5: ENVIRONMENTAL MANAGEMENT**

### **1. Budget Programme Objectives**

The Budget Programme objectives are:

- To improve internal security for protection of life and property.
- To reverse forest and land degradation.

### **2. Budget Programme Description**

The Environmental Management Programme is intended to improve the internal security for protection of life and property and planting of trees on the degraded lands in the District. The implementation of this Programme will be achieved through Disaster Prevention and Management, and Natural Resource Conservation. This Programme will be funded from IGF, DACF and GOG

### **SUB-PROGRAMME 5.1 Disaster Prevention and Management**

#### **1. Budget Sub-Programme Objective**

The Sub-programme objective of the Disaster prevention and Management is:

- To increase access to security services for the protection of life and property.

#### **2. Budget Sub- Programme Description**

The Sub-programme looks at providing adequate measures to protect life and properties before or after disaster occurrence. In addition, the Sub-programme provides public educational campaigns to people who are living in disaster prone areas and plant trees in degraded areas in the District. This will be delivered by the NADMO Unit of the Disaster Prevention Department.

The sub-programme is to be funded from IGF, DACF, DACF-RFG and GOG. It is expected that the sub-programme is to benefit the Communities, general public, Disaster

Victims and the NADMO Unit. The challenge faced by the Unit is the delay in the release of DACF which forms a huge proportion of the budget earmarked the Unit.

### 3. Budget Sub-Programme Results Statement

Table 2.31 indicates the main outputs, its indicators and projections by which the Disaster Prevention and Management measures the performance of this Sub-programme. The past data indicates actual performance whilst the projections are the Department's estimate of future performance.

## **SUB-PROGRAMME 5.2 Natural Resources Conservation and Management**

### **1. Budget Sub-Programme Objective**

The sub-programme objective of the Natural Resource Conservation is:

- To reverse forest and land degradation.

### **2. Budget Sub- Programme Description**

The Sub-programme looks at providing adequate measures to protect forest reserves and land from degradation in order to improve factors of climate change and green economy. In addition, the Sub-programme provides public educational campaigns to people who are illegally farming at the forest reserves areas and plant trees in degraded areas in the District. The Forestry Commission Unit of the Natural Resource and Forestry Conservation Department will deliver this.

The Sub-programme is to be funded from IGF, DACF and GOG. It is expected that the Sub-programme is to benefit the Communities, General Public, Forest Reserve Areas and the Forestry Commission Unit. The challenge faced by the Unit is the delay in the release of DACF, which forms a huge proportion of the budget earmarked the Unit.

### **3. Budget Sub-Programme Results Statement**

Table 2.33 indicates the main outputs, its indicators and projections by which the Natural Resource Conservation measures the performance of this Sub-programme. The past data indicates actual performance whilst the projections are the Department's estimate of future performance.
